41st World Veterinary Association Congress 2026: Childcare Room Terms and Conditions of Use

Applicants for the use of the childcare room are requested to carefully review the following terms and conditions. Upon agreement, please sign and submit this document with the application form.

1. Operation of the Childcare Room

The childcare room shall be operated by SOU Kids Care Co., Ltd. (hereinafter referred to as “the Operator”), under commission from the Organizing Secretariat of the 41st World Veterinary Association Congress 2026 (hereinafter referred to as “the Organizer”).

2. Required Personal Belongings

Guardians are requested to prepare and bring the following items as applicable:

- Water or tea
- Meals and snacks (if the child will be in care during mealtimes)
- A change of clothing (including top, bottom, and undergarments)
- Plastic bags for soiled items (e.g., supermarket bags; sufficient quantity required)
- For children requiring milk: formula, feeding bottles, and hot water (sufficient for required feedings)
- For children using diapers: diapers and baby wipes

All items must be clearly labeled with the child’s name and consolidated into a single bag.

As a general principle, meals should be taken together with the guardian. However, feeding assistance by childcare staff may be provided during the childcare period upon request.

Please note that refrigeration and microwave facilities are not available on site. In cases where feeding assistance is required, only food brought by the guardian will be provided to the child. The Operator shall bear no responsibility for any foodborne illness or health condition arising therefrom.

The bringing of personal toys is prohibited. The Operator shall not be held liable for any loss or damage to personal belongings brought into the childcare room. Notwithstanding the foregoing, children of elementary school age and above may bring books, tablets, or similar items, provided they are capable of managing such items independently.

3. Drop-off Procedures

Upon drop-off of the child, a “pickup sticker” shall be issued to the guardian. The guardian is required to retain this sticker and present it at the time of pickup.

4. Pickup Procedures

As a general rule, the same individual who drops off the child shall be responsible for pickup. In the event that a different individual is to pick up the child, prior notification must be provided to the Operator.

Presentation of the “pickup sticker” is mandatory at the time of pickup. If more than 15 minutes have elapsed after the conclusion of the event, the Operator may contact the guardian using the registered contact information.

5. Emergency Response

In the event of fever, sudden illness, injury, or other unforeseen circumstances, the Operator shall promptly contact the guardian. The guardian is required to arrange for immediate pickup of the child.

Emergency contact on the day of use shall, in principle, be made directly from the childcare room.

In the event that the guardian cannot be reached or urgent medical attention is deemed necessary, the Operator reserves the right to arrange for emergency transportation (ambulance) and to have the child transported to a medical facility.

6. Health and Eligibility Requirements

The Operator reserves the right to refuse admission in the following cases:

- Where the child is suspected of having an infectious disease as defined under the School Health and Safety Act (including, but not limited to, influenza or COVID-19)
- Where the child has a fever (generally defined as 37.5°C or higher) or is otherwise in poor physical condition on the day of use

Administration of medication to the child shall be the sole responsibility of the guardian.

The childcare service is available for children aged from three (3) months to elementary school age.

7. Liability and Insurance Coverage

The Operator shall exercise reasonable care to ensure the safety of all children during the provision of childcare services. However, in the event that injury or damage occurs due to the negligence of the Operator, compensation shall be provided solely within the scope of the insurance coverage maintained by the Operator (Babysitter Comprehensive Insurance System administered by the All Japan Childcare Service Association). / 全国保育サービス協会運営・ベビーシッター総合補償制度)

By signing this document, I confirm that the information provided above is accurate and that I agree with the content.
